TO: Mike Kosokowski, Acting Branch Chief
Compliance Branch, Office of Waste
Programs Enforcement, WH 527-E

This memo is in response to your draft memorandum telefaxed to me on February 23, 1983 concerning the above subject. I appreciate your situation and I agree with your preference that the Region, specifically, Paul Bitter, assume the technical lead for enforcement purposes on the Reilly Tar case. This would provide consistency and optimize coordination of efforts between the Superfund and Enforcement Programs. I am aware of the increased work load this will be on the Region but due to the extensive communication that has occurred between you and Paul Bitter, I anticipate there will be a smooth transition of responsibilities. I understand that the two of you will further define your specific responsibilities as they pertain to the enforcement program in the near future.
